the technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology in addition to dealing with the history of technical discovery and change history of technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred

benjamin on fashion reconstructs and redefines walter benjamin s complex fragmentary and yet influential fashion theory that he developed in the arcades project 1927 1940 and beyond while situating it within the environment from which it emerged 1930s parisian couture in this insightful new book philipp ekardt brings benjamin into discussion with a number of important but frequently overlooked sources amongst many others these include the german fashion critic helen grund who introduced him to the contemporary fashion scene georg simmel s fashion sociology henri fochon s morphological art history designs by elsa schiaparelli and madeleine vionnet films by l herbiere and others starring mae west and the photography of george hoyningen huene and man ray in doing so ekardt demonstrates how fashion and silhouettes became grounded in sex how an ideal of the elegant animation of matter was pitted against the concept of an obdurate fashion form and how benjamin s idea of fashion s tiger s leap into the past paralleled the return of 1930s couture to the depths of fashion history the use of such relevant sources makes this crucial for understanding benjamin both as a thinker and a cultural theorist

including 150 work on paper as well as several of the artist s key theoretical essays and letters this text is the catalogue for a 1997 royal academy exhibition of the drawings watercolours and prints of george grosz

in no society do women yet enjoy the same opportunities as men they work longer hours and they are paid less both in total and prorata their choices as to how they spend their time in both work and leisure are more constrained than they are for men these disparities generate substantial gaps between how much women and men can contribute to society and how much they respectively share in its benefits in most countries a fundamental aspect of these disparities in inequality in access to and performance in education the education of girls and women has been recognized for several decades as a fundamental human right and a developmental necessity never the less large gender disparities in enrolment and learning achievements persist eradicating these disparities is well within the power and spending capacity of the world s governments this book covers all the issues related to women education which makes it a comprehensive and an authentic work on the subject it will be a highly beneficial reference tool for education administrators government and non governmental organizations policy makers teachers and students of women studies and all who work for women s welfare
